## LINE CARD

### SEALANTS

<p><b>AC-350</b></p> <p>AMS-S-8802 / AMS-3276</p>	<p>B2 and B 1/2 Available in sizes 2oz, 3.5oz, Pint and 25 gram</p>	<p>Stock Item</p>	<p>3M™ Aerospace Sealant AC-350 is a family of intermediate density, fast-curing, polysulfide fuel tank and fuselage sealants that provides outstanding resistance to aviation fuels and petroleum chemicals.</p>	
<p><b>AC-380</b></p> <p>AMS-3281</p>		<p>Stock Item</p>	<p>3M™ Aerospace Sealant AC-380 is a family of Class B polysulfide sealants formulated for easy tooling. This family of sealants saves time through its fast cure and saves weight through its low density formula.</p>	<p>Helps reduce shrinkage and rework for total cost reduction</p>
<p><b>AC-735</b></p> <p>MIL-PRF-81733 Type II Class B</p>	<p>B2 and B 1/2 Available in sizes 2oz, 3.5oz and Pint</p>	<p>Stock Item</p>	<p>3M™ AC-735 is specifically engineered for fuselage applications. It is corrosion inhibitive yet contains no added chromate. It has a 25% lower density than traditional sealants yet maintains flexibility and bond strength under adverse conditions on aluminum, titanium, steel, stainless steel and composites.</p>	

### ACCESSORIES

<p>Rollers are available in 1" and 2" wide assemblies and replacements</p>		<p>Stock Items</p>	<p>For use with 3M™ Sealants</p>	
<p>AC-885 Manual Mixer</p>	<p>Replacement parts are also available</p>	<p>Stock Item</p>		<p>Accessories include rollers, spatulas, scrapers and brush</p>
<p>3M Red Scrapers</p>		<p>Stock Items</p>		<p>Proper application tools help ensure consistent end product</p>

## LIQUID SHIM

### EC-7272 Liquid Shim

Applicator and nozzles are also available

Optimise shimming processes with a new high-strength, fast-curing, injectable liquid shim:

Fills gaps up to 3mm

Cures to drilling strength within 4-5 hours at room temperature

Superior fatigue resistance

Non sag in vertical applications

Easy and accurate injection application

Excellent chemical and environmental resistance

## SURFACE TREATMENT

### AC-131

Stock Item

High performance surface pre-treatment for modern coating systems

Total cost reduction

Significant water reduction

Water-based and non-chromate

Minimum impact on the environment

Available in blue and clear

Helps reduce labour time and water usage; no scrubbing or rinsing required.

Compatible with existing application techniques; brush, spray or dip

## BOOTH PROTECTION

### Dirt-trap rolls

A specially engineered adhesive-backed material designed to:

- Protect booth walls and floors
- Trap dust, dirt and overspray
- Brighten work areas

## PPS SPRAY SYSTEMS

Enhance your quality, reduce solvents, minimize waste

The 3M PPS™ system increases efficiency by eliminating the need for traditional mixing cups and paint strainers. Now, paint is mixed and sprayed out of the same PPS™ liner with a lid and built-in filter.

A key advantage of this closed system is that it enables a painter's spray gun to function at any angle, even upside down!

Hypercoat supplies the full range of mini, midi, standard and large cups, collars, lids, liners and inserts. Nozzles are available in four sizes.
